Summary

Background. On July 11th, 2023, in a live stream debate, Haqiqatjou accused Haram Haqiqatjou, a platform dedicated to exposing his public haram actions, of doxxing, a very serious crime. Let it be known: we swear by Allah we have NEVER engaged in any form of doxxing. The onus is on Daniel to bring proof of this slander, and if he is not able to, then he MUST apologize and recant for this slander.

Haram Action. Haqiqatjou claims that Haram Haqiqatjou has engaged in doxxing, an act in which scammers and hackers search for and publish private or identifying information about (a particular individual) on the internet. There are 1-2 accounts that we're aware of that have shared Daniel's private info, may Allah guide them. But we would never. We're only dedicated to warning those who love Allah ﷻ & his Prophet ﷺ to reject Daniel, his corruption, & fitna.

Evidence of Haram. Abu Dharr reported: The Prophet, peace and blessings be upon him, said, "A man does not accuse another man of wickedness or unbelief but that it will be turned against him if his companion is innocent." Source: Ṣaḥīḥ al-Bukhārī 6045
