Discouraging Muslims From Research-Based Vaccination

August 30, 2023 · Incitement & Harm · Not retracted

(1/2) Anti-vax Daniel Reza Jou.

But he's not just anti-vax. It's a "satanic pedo gov" that's enforcing the vaccine & the vaccine is a "experimental gene editing death" concoction.

What's crazy is he didn't even take the time to delete this. Daniel catering to his fanboys. pic.twitter.com/PSgHjkuVpP
